(54) Title: A MICROPHONE/EAR-HEADPHONE UNIT AND A COMPUTER SYSTEM

(57) Abstract: The invention concerns a unit (10) with a microphone part (12) and an ear-headphone part (14). The ear-headphone part (14) is intended to be arranged at or held against the ear of a user while the microphone part (12) is intended to be arranged near the user's mouth. The unit (10) can be connected to a computer (16) in order to enable conversational communication via the computer (16). The computer (16) may also have a built-in loudspeaker or can be connected to a loudspeaker which can be a desk or floor loudspeaker (18). The unit (10) has a switching member (20). In a first switching state, the unit (10) is connected for use for conversational communication. In a second switching state, at least said ear-headphone part (14) is not active while said desk or floor loudspeaker (18) or built-in loudspeaker is active. The invention also concerns a computer system comprising a unit (10) according to the above.

A. CLASSIFICATION OF SUBJECT MATTER

IPC7: H04R 1/10

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC7: H04R

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

SE,DK,FI,NO classes as above

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPO-INTERNAL, WPI DATA

* Special categories of cited documents:

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance: the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance: the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
